2004 PETITE SIRAH – JARDINE

The grapes for this vintage were hand picked and sorted for quality in the vineyard. The fruit was fermented in small Mueller stainless steel tanks. Over three days the must was allowed to “cold soak” to extract color and flavor. Pumpovers took place frequently during fermentation. The juice was pressed off at dryness (0° Brix) and was then transferred to French oak barrels (30% new) to complete malolactic fermentation. Secondary fermentation was completed after four months and the wine spent a further 14 months in barrel. The final blend was chosen as a result of frequent tasting sessions. The finished wine was lightly filtered before bottling.
