The fruit for our 2002 Cabernet Sauvignon was hand selected from our Jardine Vineyard. It was handpicked in small lots during the cool of the morning to ensure optimum quality and ripeness. The fruit was destemmed and gently crushed into temperature controlled stainless steel tanks. To preserve varietal character, 35% of the lot was left as whole berries, with pumpovers taking place regularly to enhance color and tannin extraction from the skins. The wine was racked into barrels to complete malolactic fermentation, and was fined with egg white prior to being bottled.
